

HOW TO: KEEP YOUR RABBIT COOL

BUNNYLIFE.CO.UK

1. Add ice cubes to drinking water
2. Add a few frozen water bottles for your bunny to lie next to.
3. Create lots of shade, get creative!
4. Create a breeze via fan / wind tunnel.
5. Sprinkle water to fresh vegetables
6. Remove excess bunny hair
7. Add a ceramic / marble tile to your bun's favourite place to sit / lie down.
8. Mist your bunny's ears with water.
9. Limit exercise time to when it's cooler (early morning and evening)
10. If it's cooler inside than out then bring them inside!
11. Add extra water bowls / bottles. Keep them out of the sun. Insulate your water bottles.
12. Create a sand or soil dig pit.
13. Add sun reflectors onto your outdoor enclosure.
14. Add a damp towel into your hutch or on top of your bun's cage.
15. Add frozen ice packs underneath an indoor cage.
